

**AMENDMENTS TO THE SPECIFICATION**

Please delete the subheading entitled "Deposit of Biological Material" on page 70 of the specification.

Please delete the paragraph designated [01100] bridging the bottom of page 70 and the top of page 71.

Please amend the paragraph designated [0215] beginning on page 78 of the specification as follows:

**[0215]** Using the competitive binding assay, the epitopes recognized by 10 of the 13 hybridomas were determined. Eight of the hybridomas were specific for the epitope PEDTG, hybridoma 2.03 was specific for epitope DTG and hybridoma 2.11 recognized the epitope KTTN. Hybridomas 2.31, 1.02 and 2.12 showed poor discrimination in the competitive inhibition assay. ~~Hybridomas 2.03 (also called DA001-2.03), 2.04 (DA001-2.04) and 2.11 (also called DA001-2.11) are being prepared for deposit at the ATCC.~~ The results of this analysis are summarized in Table 8.
